# INCOME, & Inequality,

# THE MIDDLE CLASS:

BY ELI SPRENG @CODING DOJO

# THE

## Why do we like BIG Data Kaggle

# Data: Classification and 50K @ 50,000 people in 1996

# Introductions:

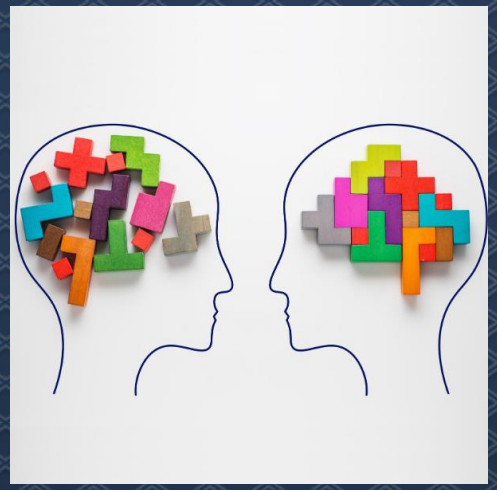
*“(we are doing)..formalized curiosity…poking and prying with a purpose.~Zora Neale Hurston*

Gender and Age Are Complicated

Not Education

All about Age

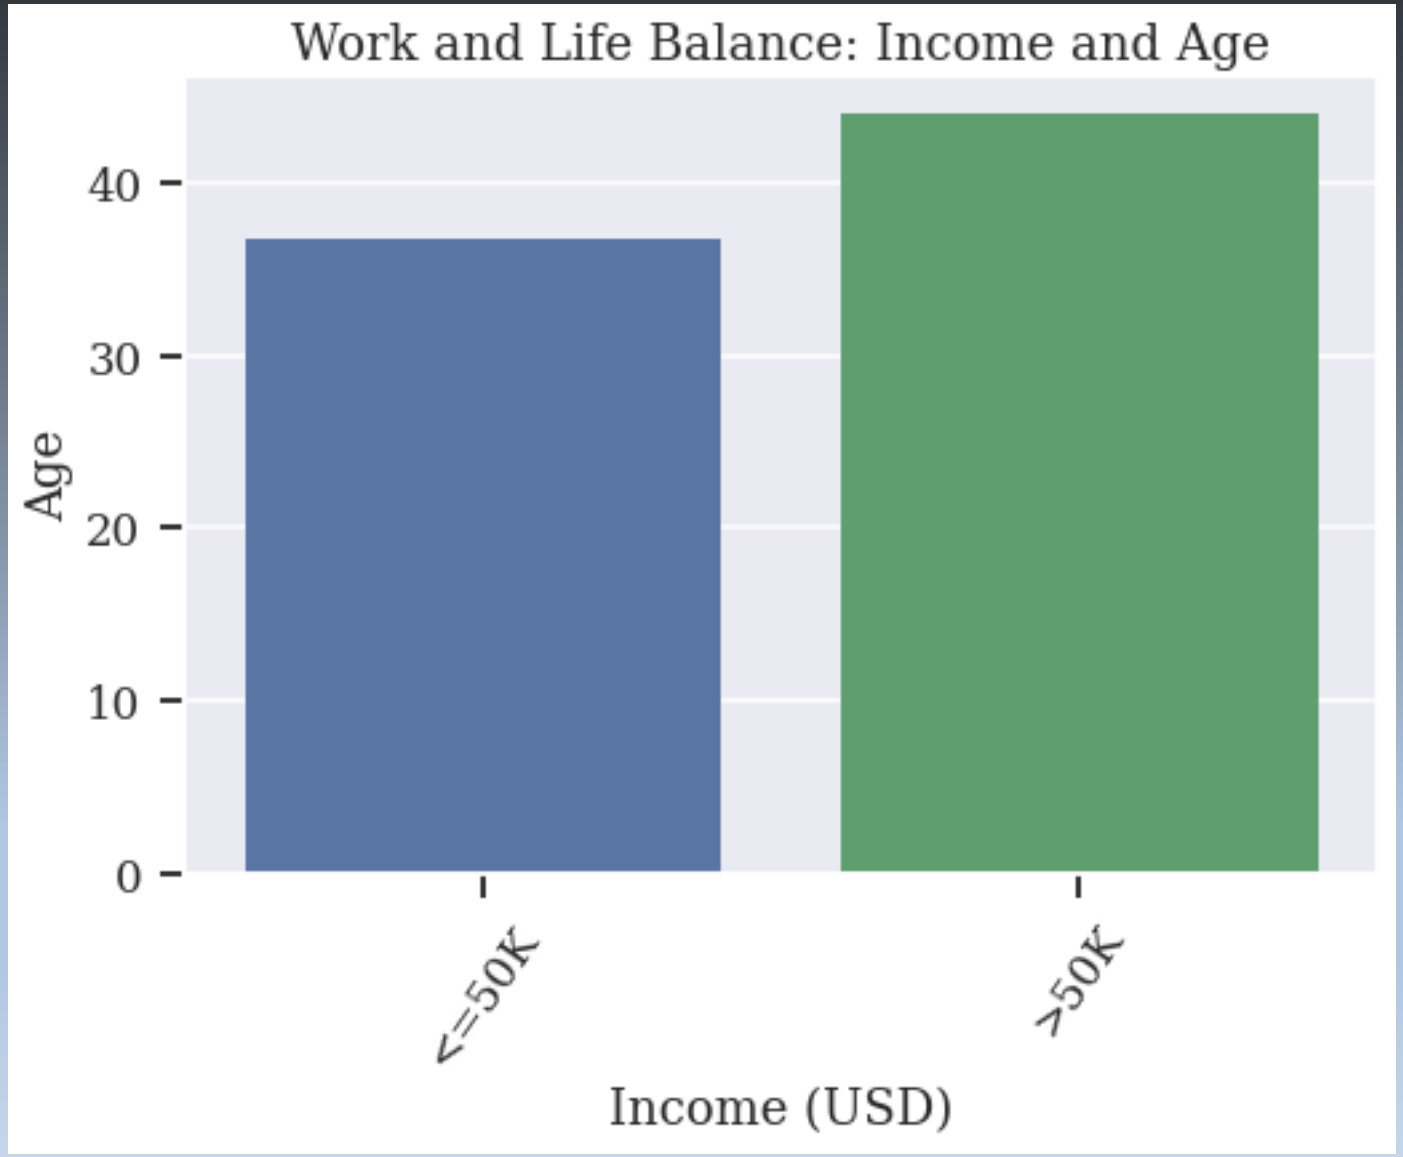
Data-This data is more than dirty

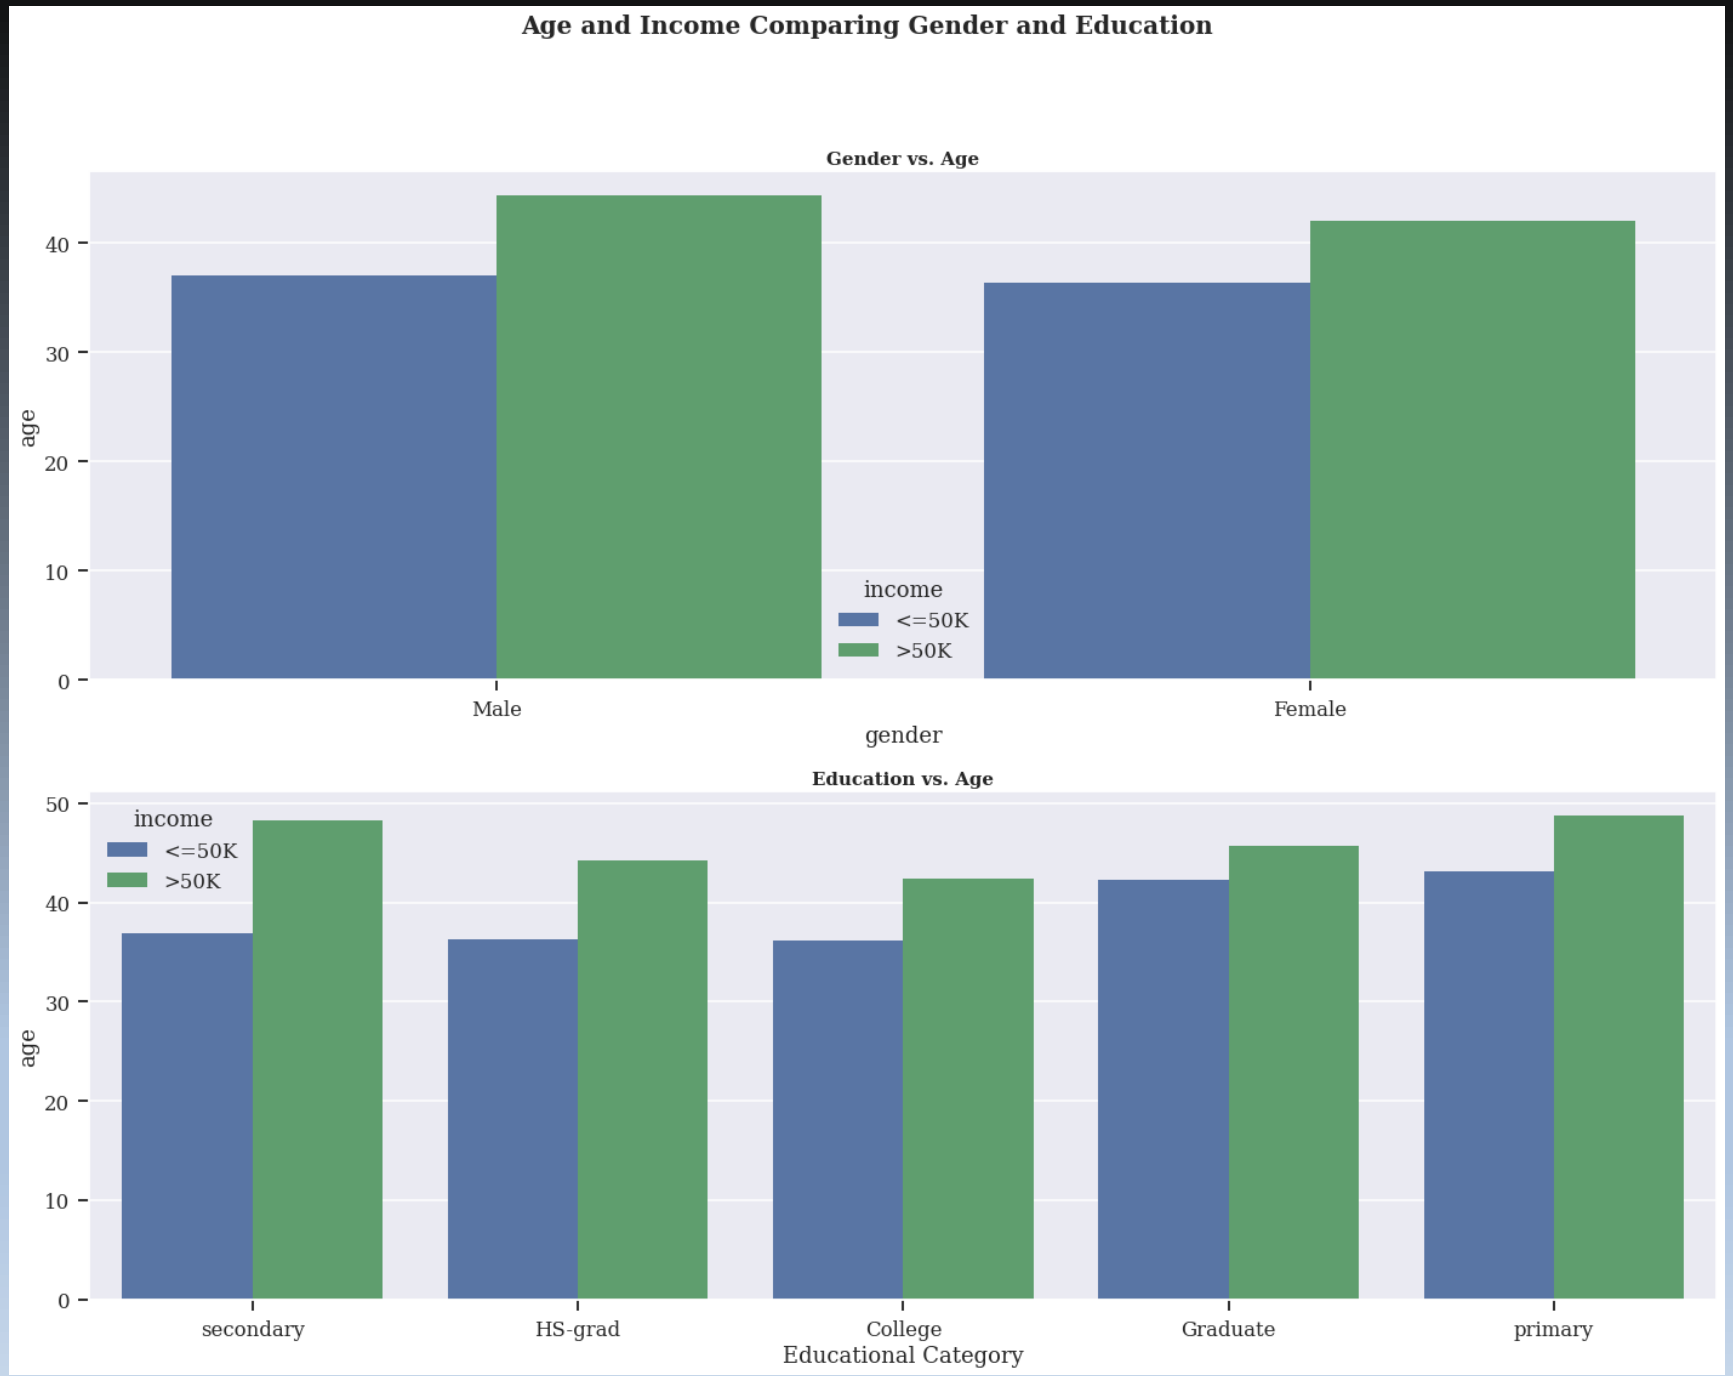


Education:
Financial Literacy

# Possible Actions: Reorganizing Our Thoughts

# Visual #1 : Age and Income





# Visual # 2: Other Factors

# Limitations

1 2 3 4

Race

Gender

Relationship

Your Thoughts

As data scientists

unprejudiced curiosity and an ability to change our mind about a data question

# Thoughts and Questions?

Thank You!
